

Technical Data Sheet

SK 044 date 17/03/08

Product: **EUFORM**

Description: Dismantling lubricant for concrete comprising mineral bases properly filled to give the necessary properties release cement and protective anti-corrosive to metal forms. The releasing action, as well as prevent the formation of residue on expensive molds, can eliminate the most common defects of such jets blowing, alone in an oil stain and discoloration, with additional benefits on the rapid cortical manufactured

Applications: The product is suitable for forming and manufactures precast reinforced concrete, cement conglomerates Vibrato no, terracotta, with molds of any materials (iron, cement, plastic). The application can be done by traditional brush or rolling although it is advisable to use a spray devices manual or automatic. **Produced free of PAH (Poly Aromatic Hydrocarbons) with concentrations below 50 ppb.**

Properties:

Specifications	Test Method	Unit	Value
Appearance	VISUAL		Clear
Color	ASTM D 1500	Unit	1,0
Density at 15°C	ASTM D 1298	Kg/m ³	820
Viscosity at 20°C	ASTM D 445	°E	1.5
Flash Point COC	ASTM D 92	° C.	110
Pour Point	ASTM D 97	°C	- 24
