

Product: **EUFREEZE G 12**

Description: New protective fluid assuring a good protection in all cooling circuits specially in aluminium ones. Produced without silicates, nitrites and phosphates it avoids deposits formation aiding upkeep automotive performances.

Specification: ASTM D 3306 and 498
SAE J 1034
CUNA NC 956-16 (I)

Properties:

| Specifications | Test Method | Unit | Value |
|---------------------------------|-------------|----------------------|------------|
| Appearance | VISUAL | | Clear pink |
| Density at 15° C | ASTM D 4052 | Kg/dm ³ . | 1,060 |
| Ash | ASTM D 1119 | % pp | 1,1 |
| Freezing Point (sol. al 50%) | ASTM D 1177 | °C | - 40 |
| pH | ASTM D 1287 | Unità | 5,0 |
| Corrosion | ASTM D 3306 | | Pass |
