

# Technical Data Sheet

SK 032 date 17/03/08

**Product:** **EUGREASE I.G.**

**Description:** Grease well studied to lubricate and protect all parts where applied (like chassis). Its water-repellent and adhesiveness characteristics allow it to be used in humid environments and connection with water.

**Specification:** **NLGI 2**

## Properties:

Specifications	Test Method	Unit	Value
Color	VISUAL		Green
Type Oil			Mineral
Type Soap			Calcium
Drop Point	ASTM D 566	°C	140 min.
Penetration at 25°C	ASTM D 217	dmm	260/290
Consistence NLGI	DIN 51818		2
