

Product: **EUSTOP 5**

Description: Synthetic fluid especially formulated for stressed braking system and clutches of vehicles. It contains inhibitors of corrosion and antioxidant additives granting the highest protection of mechanical parts. Its very high boiling point avoids “vapour lock” phenomena at high working temperatures.

Specification: FMVSS 116 - DOT 5.1
ISO 4925
SAE J 1703 F

Properties:

Specifications	Test Method	Unit	Value
Appearance	VISUAL		Clear
Density at 15°C	ASTM D 4052	Kg/dm. ³	1,065-1,080
Viscosity at -40 °C	ASTM D 445	CSt.	1100-1500 max
P.E.R.T.	ASTM D 1120	°C	260 min
pH	ASTM D 1287		8,0-10,0
